WILSON KEVIN NGATIA

Tech Professional

Karatina, Nyeri, Kenya 10101 | +254 717 854 140 | wilsonkevinngatia@gmail.com

CAREER SUMMARY:

Motivated and adaptable aspiring tech professional with hands-on exposure to computer fundamentals and introductory cloud technologies. My learning journey includes self-directed study, bootcamp participation, and practical exercises that emphasize problem-solving and continuous improvement. I am enthusiastic about starting my career in technology and developing my skills in a professional setting.

WORK EXPERIENCE:

Antioch Baptist Church Computer Labs

Computer Lab Assistant | 2022 – Present

- Ensure user satisfaction and retention by providing responsive tech support.
- Computer Application Training
- Troubleshoot, install and configure hardware systems
- Actively involved in the development of the church Website focusing on the back end and databases

RELEVANT PROJECTS:

FundiConnect

Power Learn Project Hackathon | FundiConnect

As part of the power learn project bootcamp, I got involved in one of their bootcamps, where I built a modern service marketplace platform that connects customers with trusted service providers using AI-powered matching and real-time location services.

Uplift_One

Personal Project

Currently working on Uplift_One, a privacy-first platform that enables the creation and management of AA-style meetings while prioritizing anonymity, trust, and user safety.

EDUCATION:

2025 February – 2025 August | Power Learn Project

Certificate AI for Software Engineering | Certificate_link
